

Request D: SimpleStringCorp

The customer SimpleStringCorp of Request A has a problem. The usage should be displayed in Dutch instead of English, so create a release for SimpleStringCorp which solves this. Change request:

- Display the usage of the program in Dutch instead of English.

Request E: ReverseStringCorp

ReverseStringCorp has an English version of the usage message, but also wants to display it in Dutch. Merge the features from Request D with the features from Request B into a new release to:

- Display the usage of the program in both Dutch and English.

Request F: AllFeaturesCorp

The customer AllFeaturesCorp is impressed by your software products, and wants a release with the following functionality:

- All features from Request C and Request E.
