22 November 2018 - Lunch & Learn: Artificial Intelligence, the next generation

It gives us great pleasure to invite you to the Lunch & Learn event presented by IBM and Vrije Universiteit Amsterdam on Thursday 22 November 2018, themed: Artificial Intelligence, the next generation. IBM advisor Tanmay Bakshi and VU PhD student Milan Jelisavcic will give their view on Artificial Intelligence.

At the invitation of IBM, Tanmay Bakshi comes to The Netherlands in November. On 22 November, Tanmay will pay a special visit to the VU. Tanmay Bakshi is a computer programmer, artificial intelligence expert and all-around tech extraordinaire. He has developed multiple apps, published a book, hosted a [TEDx Talk](#) and spoken at IBM Watson summits around the world. And he is 15 years old.

The VU and IBM work together since 2012 on Artificial Intelligence and specifically Watson. With our collaborative innovation centre, we work together, educate people, and attract funding in this broad and multi-disciplinary research area.

Programme

11:30 - 12:30

- Opening by Mirjam van Praag, president VU
- Talk Milan Jelisavcic, PhD student AI on the VU
- Talk Tanmay Bakshi
- Q&A with the public, moderated by VU Professor on Artificial Intelligence Koen Hindriks

12:30 - 13:30

Lunch reception and Meet & greet with Tanmay Bakshi

Location

Lecture hall KC-07 (Main building VU, De Boelelaan 1105, Amsterdam)

We are looking forward to welcoming you on Thursday 22 November!

Kind regards,

Peter Korsten
Global Leader Thought Leadership and Eminence
Partner and VP, IBM GBS Strategy & Solutions

Mirjam van Praag
President Vrije Universiteit Amsterdam
